

Stay Connected

STAY CONNECTED is...

Stay Connected is a personal reminder app. The app monitors how often you speak with your contacts based upon the call history.

With stay connected, Everyone stays connected. Add your contacts into groups like family, friends, work, business etc. If you forget to interact with them stay connected helps to remind you.

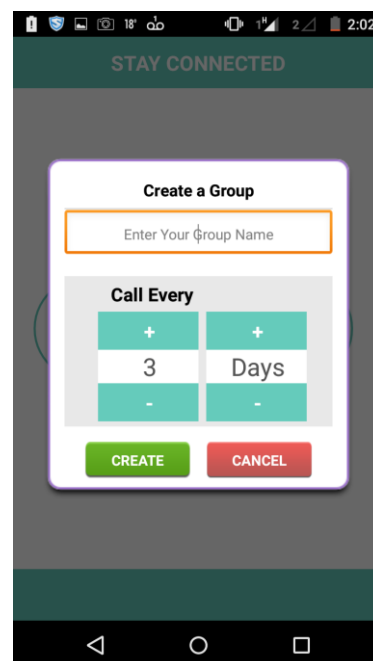

Stay Connected makes your closer ones much closer and improves your connections with clients or colleagues.

HOME SCREEN

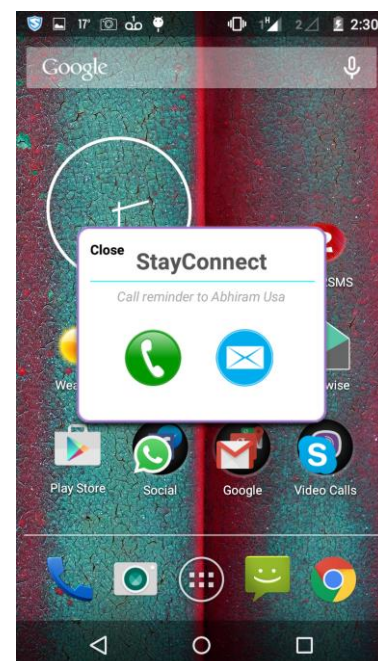

Home screen, you can create a new group or you can view the existing groups.

CREATING GROUPS

You can create a group and set a default reminder time for the group.

NOTIFICATION

The notification pops up once the reminder time is elapsed for any contact with a vibration. You can directly interact with the notification to make a call or message for that contact.

FEATURES

Stay Connected is a cool android call queue app that lets you

- Add important friends and clients you want to call regularly.
- Alerts you when you haven't called a contact for a specified time in the form of pop up notification with vibration.
- Split contacts into groups like family, friends, business, work etc.
- Create default call schedules for the groups.
- Create custom call schedules for a particular individual in any group.
- Interact with the notification directly to open the phone's default caller or messaging app.
- Takes only few seconds to install & easy to use.
